COST BASIS ELECTION FORM

The cost basis of covered shares, generally shares acquired on or after January 1, 2012, is determined using the fund's default method, unless you elect another method. WesMark Fund's default method is Average Cost. Complete this form to elect a cost basis method for covered shares.

Do not use this form to:

- Elect a cost basis method for noncovered shares, an IRA, or Money Market account.
- Revoke Average Cost.

Cost Basis Method

You may elect a different cost basis method or change methods below. To determine which cost basis method is appropriate for your tax situation, please consult a qualified tax professional.

Important: The method you elect will be applied to future redemptions. However, if you are changing from Average Cost to another method, the method you elect below applies to shares acquired after the effective date of the change. Only a *revocation* of Average Cost is applied retroactively. If you would like to *revoke* the Average Cost method, please contact us to determine your eligibility and for instructions.

I would like to elect the same method for all funds in this account, including funds I may acquire at a later date.
